Modernisation of Master Curriculum in ICT for
Enhancing Student Employability (MaCICT)

Co-funded by the Erasmus+
Programme of the European Union

In the past year the MACICT project we held workshops (offline and online) for the BY teachers.

The workshops focused on the **basics of didactic activities** in university teaching.

The participants acquire didactic and methodical knowledge about the interplay of teaching and learning.

They deal with the questions of **what conditions teaching / learning processes** are subject to and **how** these can be designed under the claim of participant and **action-oriented teaching**.

In the next future workshops more advanced topics will be focused.

Are you a teacher in ICT
(Information and Communication Technology)?

Are you interested in improving your teaching?
Then let's do it together!

Contact us and join the next workshops,
involve your students in the project, do networking!
